

CAIZER X35N

High Quality, Affordable Price

3500kg SWL

The Quad hydraulic synchronization system prevents uneven lifting or lowering of the load

No cross rails or torsion bars between lifting platforms (for maximum accessibility in the working area).

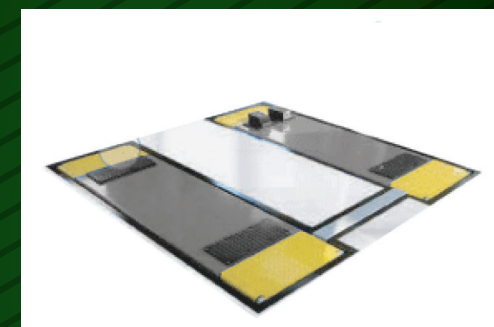

Space saving when lift is raised.

Virtually free floor space when lift is fully lowered.

ControlBox

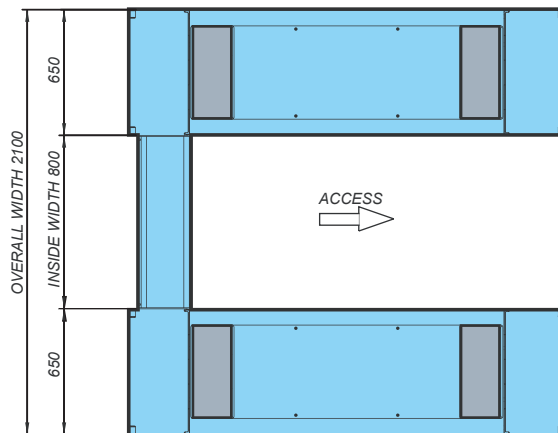

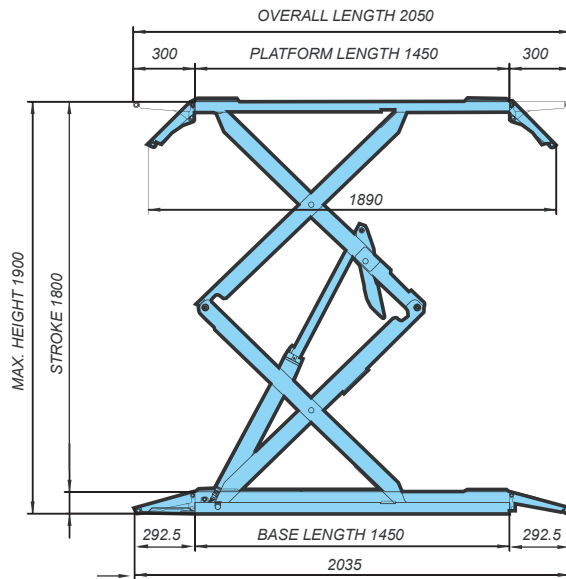

The control console features an integrated hydraulic unit and thus considerably helps reduce the installation effort.

Inground Type

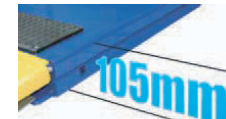

DRAWING: X35N

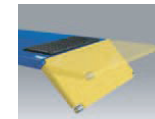

FEATURE

((Feature))

Covering all range of vehicles from the light car to the heavy SUV

Min. Height 105mm

One touch
Extension Ramp

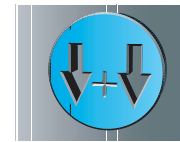

Max. Height
1,905mm
